CUSTOMER**

Dear Well-Connect Hybrid Geothermal Customer:

At Well-Connect, our mission is simple: provide rural homeowners the absolute greenest and lowest cost means of heating and cooling their homes and make a meaningful positive impact, economically and environmentally, on rural communities. Now that you're saving on your heating & cooling costs, make sure your family, friends and neighbors are doing the same. Recommend a Well-Connect Hybrid Geothermal System and when they have a system installed, you will receive a referral reward for \$1,000.

It's easy to participate in our referral program. Simply complete the information below and return it to us by email, mail, or visit www.wellconnectgeo.com/referral by scanning the QR code at the bottom of the page.

The reward is redeemable only for a referral from an existing customer that concludes in the purchase and installation of a Well-Connect. Proof of purchase is required. This offer cannot be combined with any other referral offer. Well-Connect Hybrid Geothermal is not responsible for incomplete requests, or any consequential damages. Please allow 6 to 8 weeks after the referred installation for processing. Void where prohibited, taxed or otherwise restricted by law. Well-Connect Hybrid Geothermal reserves the right to rescind and/or change the offer at any time. Sales/purchases from Well-Connect Hybrid Geothermal dealers, installers, employees and families are not eligible for this program. Offer is valid on purchases beginning on March 26, 2024.
